Quality-focused Data-driven Professional, with over 2 years of experience in data science (business analysis & intelligence), specializing in designing scalable data models, developing ETL pipelines, and delivering actionable business insights.

EDUCATION

Sep 2023 – Date

MSc. Business Analytics, Computer Science & Engineering
University of Oulu, Finland

July 2014 – Feb 2020

BSc. Mathematics & Computer Science
National Open University of Nigeria

WORK EXPERIENCE

May 2024 – November 2024

Arina Cooperative Capstone Project, Oulu, Finland
Role: Data Analytics Specialist

- Conducted business intelligence, utilizing SWOT analysis, Pandas, and SQL to analyze key metrics, identifying patterns and trends in customer experiences, and highlighting actionable areas for improvement.
- Explored underlying factors that explained the 47.7% variance in customer satisfaction scores.
- Presented findings and recommendations through data visualization focusing on short- and long-term customer retention.

Jan 2021- July 2023

Fid Itegbé Limited, Lagos Nigeria
Role: Data Scientist (Business Intelligence)

- Developed consumer and market intelligence through research, and implemented machine learning models to predict customer behavior, improving retention rates by 15%.
- Conducted A/B testing and statistical analysis to optimize marketing strategies, resulting in a 10% increase in ROI.
- Utilized Python, Pandas, and Scikit-learn for data processing and model building.
Developed data visualization dashboards using Tableau and Matplotlib to present insights to technical and non-technical stakeholders.

EXPERTISE

Data Modeling: Designing scalable data schemas & architectures that incorporate business processes.

Data Automation: Building and maintaining efficient ETL pipelines with Python, DBT

Databases: Proficient in SQL and conducting business intelligence on key metrics using relational databases (MySQL, PostgreSQL).

Programming Languages: Python, SQL

Data Processing: Databricks, DAX, Pyspark, Medallion Architecture

Data Analysis: Pandas(Data processing), NumPy, Power Query, Excel, Databricks

Data Visualization: Tableau, Power BI, Matplotlib, Seaborn

Machine Learning: Scikit-Learn

Version Control & Deployment: Git, Docker

Statistical Analysis: A/B Testing, Hypothesis Testing

Cloud Services: Azure, Microsoft Fabric

SOFT SKILLS

Communication, Critical thinking, Identifying KPIs and key Metrics, Collaboration, Project Management (Agile methodologies)

CERTIFICATIONS

Microsoft Azure Fabric Analytics Engineer Associate – DP-600

Microsoft Azure Data Scientist Associate - DP-100 (Designing and implementing data science solutions on Microsoft Azure)

Meta Database Engineer Certificate

IBM Data Warehouse Engineer Specialization Certificate.

Advanced SAS Visual Analytics Certificate.

Advance Data Modelling Certificate(Meta)

PORTFOLIO & PROJECTS:

Database Design and Interaction using Python and MySQL: <https://github.com/fredie7/python-sql-database-engineering-and-analytics>

Data Modelling project: <https://github.com/fredie7/data-modelling-project/tree/main>

META Database Capstone Project: <https://github.com/fredie7/db-capstone-project>

ETL pipeline to track UK stock market prices: https://github.com/fredie7/data_etl

Python programming, API, Django & Testing proficiencies: https://github.com/fredie7/python_projects

Machine Learning customer analytics project: https://github.com/fredie7/change_customer_behaviour

University Project: Business Intelligence and Visualization: <https://github.com/fredie7/business-intelligence-analysis-visualization-and-report>

University Project: Arina Capstone Project: https://github.com/fredie7/Arina_capstone_Project

University Project: Big Data Processing with Pyspark and Report: <https://github.com/fredie7/big-data-processing-project-and-report>

LANGUAGE

English (Fluent), Finnish(Beginner)
